www.plusgood.space

A self-taught problem solver with a diverse skill stack.
Passionate about creating work environments where intelligent data-driven systems enable teams to focus on growth and the work they can enjoy.
I'm looking for a team of like-minded people to build long-term relationships with and, through little feats, score big wins.
Drop me a line if my experience resonates with your needs and objectives.
I'll be happy to talk and collaborate on exciting things that improve our world!

Work Experience

NDA

AI Automation & Quality Engineer

May 2025 - Sept 2025

- Built data-driven agentic workflows and quality assurance framework for an internal services team, boosting delivery speed and reducing workload by 25%.
- Created comprehensive documentation and clear metrics for maintaining these solutions, optimizing team performance, and future growth.

FunnelFox

Technical Support Engineer

Dec 2024 - May 2025

- Conducted in-depth technical investigations to resolve and escalate complex customer issues.
- Helped customers implement standard and custom funnel logic, integrations, and interfaces for web2app conversion optimization, leveraging internal and external API services, webhooks, pixels, and other web development solutions.
- Co-developed cross-functional workflows and key performance indicators to track team performance and workload.
- Collected, organized, and shared with the product team UX insights and customers' feedback.
- Implemented workflow automations that helped enhance team performance and eliminate lost case instances.
- Maintained and improved product documentation.

TripleTen

Customer Support Team Lead

Jun 2023 - Oct 2023

- Led a global international team of 12 tech and educational support agents.
- Ensured the hiring processes filled the team with desired talent.
- Managed the selection and migration to a new software stack, which allowed for streamlined cross-team data integration and unlocked new opportunities for boosting team efficiency and customer satisfaction.

Senior Customer Support Agent

Oct 2021 - Jun 2023

- Fostered team efficiency and user satisfaction by delivering exceptional technical and educational support and serving as a role model for colleagues, keeping their endorsement at 99%.
- Provided expertise to colleagues and customers, ensuring the team's adherence to company policies and standards.
- Provided quality assurance for keeping the service up to the company's standards and developing the team's talent.
- Built and maintained a comprehensive support analytics system to track team performance, workload, and collect valuable UX insights for product teams.
- Built and maintained robust processes and automations to ensure exceptional support, seamless inter-team collaboration, and team development.
- Served as the connecting point for cross-team collaborations and knowledge sharing.

Customer Support Agent

Oct 2020 - Oct 2021

- Resolved 3,000+ customer cases, maintaining personal CSAT at 95% and above.
- Provided technical and educational support on Data Science, Data Analytics, and Web Development programs.
- Investigated platform bugs and incidents for resolving and escalating customers' problems and resolving issues proactively.
- Reviewed students' practical assignments to support them in learning, as well as troubleshooting technical issues.
- Filled the internal FAQ with formatted replies to speed up the resolution of customers' issues by the team.
- Collected, organized, and shared with the product team UX insights and customers' feedback for platform and educational programs development.

Instaon

Customer Success Manager

Feb 2019 - Oct 2019

- Guided 100+ agencies and SMBs in integrating a proprietary AI solution into their digital marketing strategies.
- Conducted business verification and fraud detection activities, ensuring customers' compliance with ad network policies, keeping the company's Google Ads Partner account free from low-quality traffic.
- Assisted clients in resolving technical and strategic challenges in implementing LLM tools and campaign management.
- Served as the voice of the customer, collecting and channeling CX data to inform product development.

Freelance

Digital Marketing Manager

Sept 2017 - Oct 2019

- Provided digital marketing consulting to SMBs, conducting comprehensive audits and implementing marketing strategies that improved campaign ROI by an average of 55%.
- Created and managed dozens of Google Ads and Yandex Ads campaigns, increasing client sales by an average of 25% while reducing marketing spend by up to 20% through conversion optimization strategies.

Translator

Sept 2016 - Sept 2017

- Translated a thousand pages across English, Russian, and Spanish for international clients, handling diverse content from medical docs and business plans to entertainment media like BBC Top Gear, keeping cultural and brand identity.

Elhow

Web Content Editor

May 2013 - Mar 2016

- Led a global team of thirty copywriters and graphic designers to deliver high-quality content that met usability standards, SEO requirements, and drove company revenue.
- Owned full content lifecycle: from content planning through final editing and publication of more than 4000 articles.
